

## SHOPEASE – PAYMENT FAQ

Policy Version: 2026.1

Q1. What payment methods are supported?

ShopEase supports:

- UPI
- Credit cards
- Debit cards
- Net banking
- ShopEase Wallet
- Selected Buy Now Pay Later services

Q2. My payment failed but money was deducted. What should I do?

Do not make another payment immediately.

First check the order status.

If the order was not created, the deducted amount is normally automatically reversed by the payment provider.

If the amount is not reversed within 5 business days, contact ShopEase support.

Q3. Can I pay cash on delivery?

Cash on Delivery is available only for selected products and delivery locations.

The option is displayed during checkout when available.

Q4. Can I change my payment method after placing an order?

Payment methods normally cannot be changed after an order has been successfully placed.

The customer may cancel the order if cancellation is still available and place a new order using another payment method.

Q5. Is my card information stored?

ShopEase does not store complete card numbers. Payment processing is handled through authorized payment providers.

Q6. My UPI payment is pending.

Wait for the payment status to update before attempting another payment.

If the status remains pending for an extended period, contact support with the transaction reference.

Q7. Can I use multiple payment methods?

Multiple payment methods cannot normally be combined for a single order unless specifically supported during checkout.
