## WORK EXPERIENCE

---

### Euphoria Genx

July 2025 - January 2026

\*Completed 6-month onsite **MERN stack** training program, gaining hands-on experience in **MongoDB, Express, React, and Node.js**, and developing practical full-stack projects.

\*Worked on real-world projects to implement CRUD operations, **REST APIs**, and **responsive front-end interfaces**, applying best practices in full-stack web development.

## PROJECTS

---

### Meal Recipe Finder – *MERN, Tailwind, Razorpay, Edamam API*

[Live](#) | [Code](#)

\* Designed a **MERN-based** meal recipe platform with **JWT-based authentication** stored in **HTTP cookies** and a responsive UI, serving **20+ recipes** via the **Edamam API**.

\* Implemented a usage-based subscription model with **3 free trials**, integrated **Razorpay** for payments, and managed API-driven meal data and access control.

### MeetConf – *MERN, Tailwind, Socket.IO*

[Live](#) | [Code](#)

\* Developed a responsive video conferencing platform supporting **1:1 and group calls (up to 6 users)** with secure authentication, email verification, and user profiles.

\* Integrated **Socket.IO** for real-time signaling, **ICE servers** for peer-to-peer video streaming, and a scheduling module to manage upcoming meetings.

### ChatConnect - *Next.js, PostgreSQL, Socket.IO*

[Live](#) | [Code](#)

\* Built a **real-time chat platform** with **user authentication, search, chat requests, and contact management**.

\* Implemented instant messaging, online status, and **secure JWT-based sessions**, delivering a responsive and production-ready user experience.

## EDUCATION
